

# Giving Back- Habitat Build 2011

November 4<sup>th</sup>, 2011

For the past two years, 3H Group Hotels has given back to the community by participating with Habitat for Humanity. Hotel management and staff along with corporate members work side by side with the Habitat construction team in a tremendous effort to change lives.

This year, 3H's involvement with Habitat is part of the World Habitat Day series, which kicked off October 3<sup>rd</sup>. The World Habitat's 2011 Theme, Housing Cities after a Disaster, is meant to draw from experiences in Haiti, the Gulf Coast, and the Indian Ocean tsunami.

Habitat organizations in every U.S. state and 40 countries across the world will create their own World Habitat Day events throughout the month of October. World Habitat Day sparks a six week long special event series in honor of reaching an incredible construction milestone: building 500,000 homes worldwide since 1976.

Habitat for Humanity of Greater Chattanooga has built over 200 homes and has changed nearly 1,000 lives since 1986. On November 4<sup>th</sup>, the 3H Team will be involved in constructing a new home by assisting in small projects such as framing walls and interior painting.

3H Group Hotels owns seven properties in the greater Chattanooga area, all of which will be involved with the Habitat Build.
